- Experience in finance/banking, education, non-profit, healthcare sectors
- Provides long-term planning and guidance to support evolving security demands
- Located in Utica, N.Y. – Clients throughout the U.S.

Introduction

- Growing Cyber Security Threats
 - Heightened cyber security awareness (Russia & China)
- Banking sector increasingly a target
 - PII
 - Cripple Economy
- Prepare for the unexpected – Be Hypervigilant
- Zero-Day Attacks
 - Anti-Virus & IDS are not effective
 - SOC Services

Proactive Measures

- Update Anti-Virus & Anti-Malware Systems
- Ensure recent backups of critical data
- Increase Monitoring of Alerts & Systems (SOC Monitoring)
- Internal & External Vulnerability/Penetration Testing
- Social Engineering Testing
- Ongoing Cyber Security Training
- Incident Response Retainer

SOC Monitoring Services

- Monitor security systems and alerts
- Prioritize security alerts
- Take immediate action

External Penetration Test

- Use simulated attacks against external firewalls and external facing systems
- Identify:
 - Open ports
 - Potential vulnerabilities
 - Methods of intrusion
 - Internal data leakage

Internal Vulnerability Assessment

- Test internal network in the following areas:
 - Policy and Procedure benchmarking
 - Network scanning
 - Access control testing
 - Data storage security testing
 - Data transmission security testing
 - Physical security analysis

Social Engineering Testing

- Attempting to improperly gain access to sensitive information or locations without proper authority, intended to gauge employee responsiveness using methods such as:

- **Phishing**
- **Vishing**
- **Pretexting**
- **Adversarial attack**

Training

- *Cybersecurity Training and Awareness:*
 - Customized training sessions focused on human vulnerabilities related to information and data protection
 - Diverse audience training that may be tailored to audiences such as executives, technical personnel, administrative and clerical staff
 - Adaptable training formats such as:
 - In-person training
 - Online training
 - Hybrid training
